TAVOR with reflex sight and laser pointer

In various comparison tests the TAVOR has proven to be significantly superior because of the operation advantages of the rifle:

- Increased hit probability during exertion.
- High reliability during function in extreme conditions.
- Constant day & night use without zeroing.
- Human engineering that increases user's comfort and confidence.
- Accurate, compact short rifle with long barrel.
- Rear gravity center (close to the user's body) enables to hold and aim to front in movement.
- Ambidextrous.
- Advanced and accurate sighting system attached directly to barrel.

The TAVOR Assault Rifle is the answer to all the platoon requirements of a 5.56 mm caliber weapon.
